

C-FBISD Virtual Campus (Moodle)

WHAT ARE THE VIRTUAL CAMPUS & MOODLE?

- The C-FBISD Virtual Campus is a web-based learning initiative designed to meet the needs of Carrollton-Farmers Branch ISD students. Our mission is to provide extended and flexible learning opportunities for students and educators via the Internet. Moodle is a web-based program that allows you to interact with your teachers and other students in your class. It includes forums, journals and other things in a blog-like environment.

HOW WILL WE USE IT?

- PreAp classes will be writing My Learning entries using the Virtual Campus.
- All classes will be able to access the Virtual Campus to ask questions, take quizzes, look up vocabulary, for class info, or to attend tutorial sessions. There will also be a TAKS Tutorial class for all to practice and ask questions.

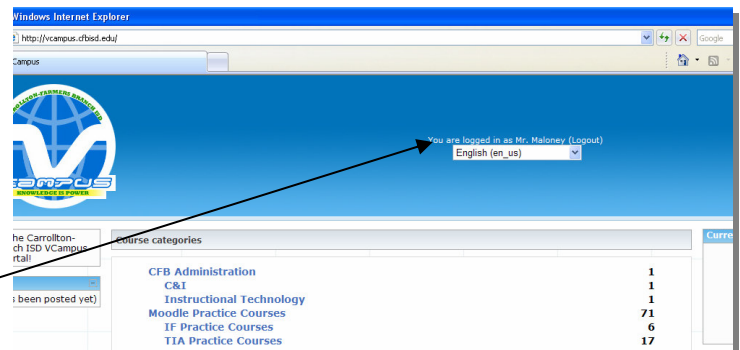

HOW AND WHERE CAN I ACCESS THE VIRTUAL CAMPUS?

- You can access the Virtual Campus from any computer with an internet connection.
- Below are the steps necessary to login to the Virtual Campus. Read and follow these steps very carefully. If you have questions, ask your instructor.

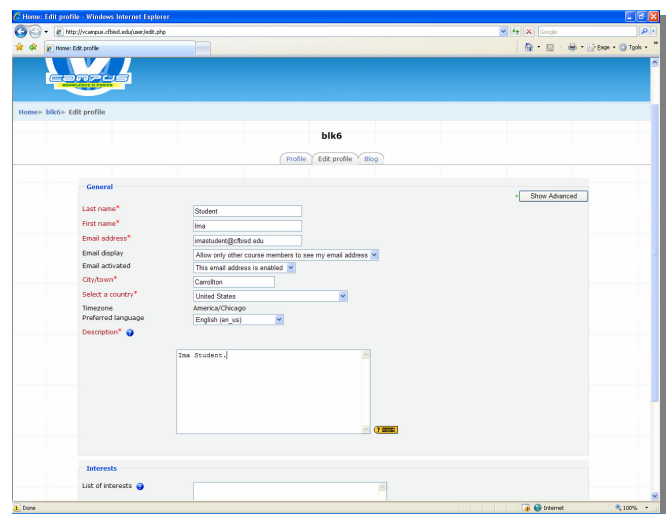

1. Go to the virtual campus login page: vcampus.cfbisd.edu (do not type www.)
2. Your username and password are the same as your login to the computer labs.

3. Now this page should appear. It lists all the virtual classrooms in CFBISD for every school.

- Before you click on anything, find your login name at the top of the screen and click on it.

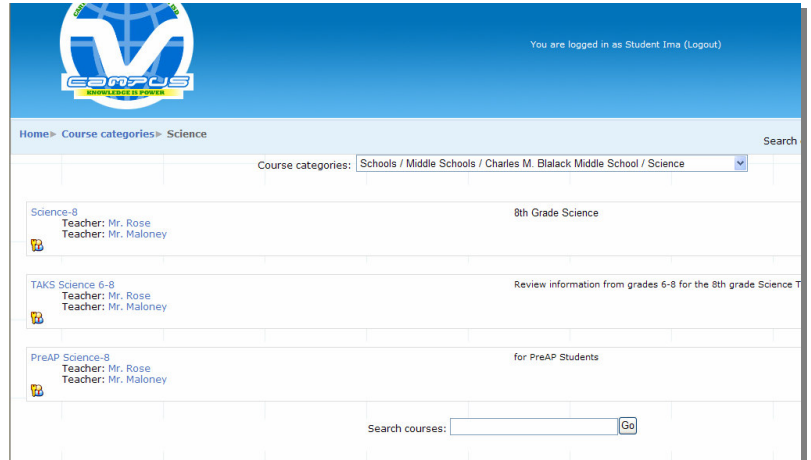

4. When you click on your name, this screen should appear. You are required to fill in all the areas colored red. Make sure to type in an e-mail address that works so you can receive updates from your teachers. When you are done, click "Update," and then click "Home" on the upper left of the page.

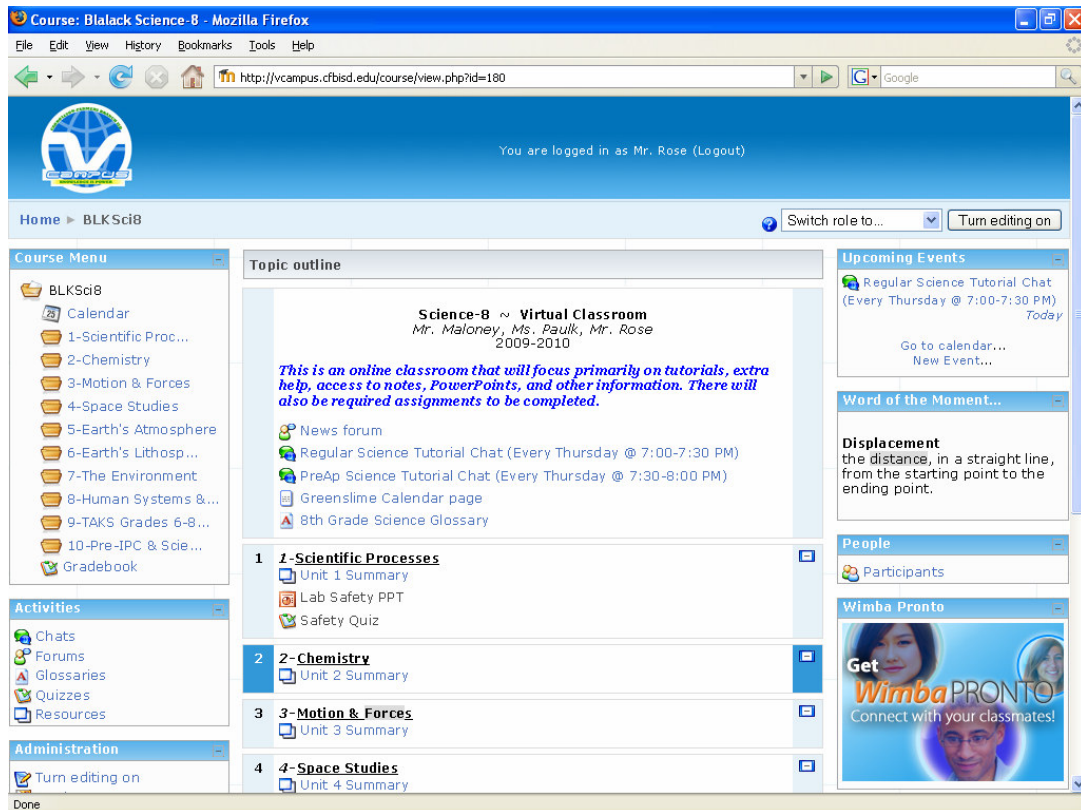

5. Clicking "Home" should bring you back to the Step 3 page. Look down the list. You will see "Middle Schools," then "Blalack" right under it. **Do not** click "Blalack." Find "Science" under "Blalack" and click it.

6. Clicking "Science" should bring you here, which lists the 3 different Moodle courses for Science. **Do not** click on your teacher's name. Click on the course name you are taking at Blalack.

7. When you click on the course name a screen will appear asking for an **enrollment key**. Each class has a specific enrollment key that your instructor will give you. You only have to do this once.

8. Once you have entered your enrollment key, the screen below should appear. Congratulations!!! This is the Moodle Virtual Campus page:

Feel free to explore and play with the features of this virtual classroom. If you have further questions as to how to use certain features, let your instructor know.
